

Revive Oracle Forms

Oracle Forms Modernization with Oracle JET

We offer Oracle Forms modernization services based on our ten years experience in this field.

Red Samurai Consulting (Oracle PaaS/VBCS 2019 community award winner) provides expert guidance for gradual Oracle Forms systems revival with Oracle JET in Cloud and On-Premise.

Why Choose Us

- ✓ We know how to reuse existing business logic from Oracle Forms in the new system
- ✓ Strong full stack development experience with Oracle and Open Source products
- ✓ Hands-on experts, we put implementation quality first. We build good performance from the start

Our Service

Proof of Concept

PoC implementation is a good start. In short time we will show how technology can be applied for your business.

Technical Architecture

We value Oracle Forms investment. Our proposed architecture is based on gradual modernization approach.

Implementation

UI layer is implemented with Oracle JET or VBCS. Business rules are reused from DB, exposed through REST.
